- IEEE 1394a camera
- Lightweight
- Robust design
- Machine vision camera

### 基本描述

Ultra-compact, inexpensive high contrast VGA camera with HDR mode

The Guppy F-036B/F-036C is an ultra-compact, inexpensive VGA camera for applications with high contrasts. It is equipped with a CMOS sensor by ON Semiconductor (Aptina) which supports the High Dynamic Range (HDR) mode. At full resolution, it runs at up to 58 frames per second. Higher frame rates can be reached by a smaller area of interest (AOI).
