基本描述

2.8 Megapixel GigE camera with Sony ICX674 CCD sensor

Manta G-283 is a machine vision camera that incorporates the high quality Type 2/3 (10.972 mm diagonal) Sony ICX674 CCD sensor with EXview HAD II technology. This sensor is distinguished by reduced smear, higher quantum efficiency, and enhanced near-infrared sensitivity. This camera with its ICX674 sensor has an excellent image quality even under challenging light conditions. At full resolution, this camera runs 30.4 frames per second. With a smaller region of interest, higher frame rates are possible. The Manta is one of Allied Vision's versatile GigE Vision cameras with a wide range of features. Particular highlights are the three look-up tables, sophisticated color correction capabilities, a robust metal housing, and many modular options. By default monochrome models ship with protection glass B 270 (ASG) and color models ship with an IRC Hoya C-5000 IR cut filter.

Benefits and features:

- Monochrome (G-283B) and color (G-283C) models
- GigE Vision interface with Power over Ethernet option
- Screw mount RJ45 Ethernet connector for secure operation in industrial environments
- Supports cable lengths up to 100 meters (CAT-5e or CAT-6)
- Trigger over Ethernet (ToE) Action Commands allow for a single cable solution to reduce system costs
- Comprehensive I/O functionality for simplified system integration
- Popular C-Mount lens mount
- Easy camera mounting via standard M3 threads on top and bottom of housing or optional tripod adapter

- Easy software integration with Allied Vision's [Vimba SDK](#) and compatibility to the most popular [third party image-processing libraries](#).

Options:

- Available with Power over Ethernet (PoE) compliant interface
- Available with CS-Mount or M12-Mount adapter
- Available with Protection glass B 270 (ASG), IRC type Jenofilt 217 (IR cut filter), IRC Hoya C-5000 (IR cut filter), IRP RG715 (IR pass filter), IRP RG830 (IR pass filter)
- Available with white medical design

See the [Modular Concept](#) for lens mount, optical filters, case design, and other modular options. See the [Customization and OEM Solutions](#) page for additional options.
