

Presto GigE Pro Expresscard 34

Presto GigE Pro Expresscard

Presto GigE Pro Expresscard is compatible in MacBook Pro and Windows notebook computers with an ExpressCard/54 or ExpressCard/34 slot. This card supports full duplex communication to achieve 2000 Mbps transfer rates. Presto GigE Pro Expresscard also supports 9000 byte jumbo packet transfers (compared to 1500 byte standard packets) to support higher performance and reduced overhead when transferring images.

Highlights

- Express Card/34 slot
- Full/half duplex communication
- 1000/100/10 BASE-T auto negotiation

- Supports jumbo frames (9 KByte)
- Plug and play installation
- IEEE 802.3 10BASE-T; IEEE 802.3u 100BASE-T; IEEE 802.3ad 1000BASE-T

Technical Specifications

Feature	Description
Adapter Type	Gigabit Ethernet
Interface	ExpressCard/34 slot
Physical Layer (PHY)	Gigabit Ethernet port
Speed / Bandwidth	1000BASE-T, 100BASE-TX, and 10BASE-T
Jumbo frame support	9KByte
RoHS Compliant	Yes
Network Connectors	One RJ45 connector
I/O Address	Assigned by system
IRQ line	Assigned by system
Link	Supports link aggregation
Compatibility	Compatible with all Allied Vision GigE Vision cameras and software
