Affected products

All Mako GigE cameras.

Reason for change

Change of manufacturing process.

Change description

The housing material of the Mako GigE cameras will be updated from aluminum to zinc.

No change in fit and function (measures, visible geometries).

Exception: by using the material zinc with its different properties, e.g. the overall weight of the camera is increased by approximately 25g.

The change is implemented since 2015-November-11. From this date on, all cameras are produced with the new housing material.

First serial number with the change: 53687734.
